Note : There are four questions and four pages.

Question One : Read the paragraph and answer the following questions :(12 p)

Members of Generation Z , or the so-called Gen Zedders, are those people born between 1997 and 2012. According to recent research , carried out by a non-profit organization called the Varkey Foundation, most of Generation Z consider themselves to be happy . Of course ,an obvious question is ‘What is happiness?’ For some young people it is just having a roof over their head and something to eat.

The report also found that Gen Zedders are becoming less happy as they get older. The 19-21 age group had a happiness score of only 52,compared to 69 for 15-16 year-old. Young people seem to be becoming more aware of the big challenges facing society ,such as climate change and poverty, and they want to play a part in changing society for the better.

While older generation may view the increasing importance of the internet and social media as harmful ,Gen Zedders have a very relaxed attitude to technology, seeing **it** as something that makes their everyday lives easier than it would be otherwise. This is perhaps not surprising for the first generation of true’ digital natives’ -people who have grown up surrounded by digital technology .
